DETAILED ACTION

Claim Rejections - 35 USC § 101

1. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

2. Claims 1-13, 52-53 and 60-70 are rejected under 35 U.S.C. 101 because it improperly embrace or overlap two different statutory classes of invention, namely, a semiconductor device and processes of manufacturing a semiconductor device through use of a metal not diffusing from a support surface and into a plurality of high-K dielectric layers, for example, which statutory classes are set forth only in the alternative in 35 U.S.C 101. See MPEP 2173.05(p).

Claim Rejections - 35 USC § 112

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claims 1, 8, 12, 13, 52, 62, 63, 67 are rejected under 35 U.S.C. 112, second paragraph, because it is directed to both a semiconductor device and a method of manufacturing a semiconductor device. As a result, the scope of the claims cannot be determined. See Ex parte Lyell 17 USPQ2d 1548 (8/16/1990).
5. Claims 1, 8, 12, 13, 52, 62, 63, 67 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the

Art Unit: 2823

inventor(s), at the time the application was filed, had possession of the claimed invention. In reference to claim 1, for example, applicants recite, "...further wherein the common metal does not diffuse from the support surface and into the plurality of high-K dielectric layers". However, this is not described in the disclosure as originally filed and thus fails to comply with the written description requirement.

Conclusion

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
